

PRESS RELEASE

"Transport ventilation redefined"

Date: 14 May 2008

Weinmann in triplicate at RETTmobil

Fulda – Weinmann, the Hamburg-based medical technology company, is presenting itself under the motto "Transport ventilation redefined" at this year's RETTmobil. At the center of the company's stand (Stand 1102 in Hall G) is an innovative ventilator which can be used in emergency patient transport and acute care transport. MEDUMAT Transport, the newest development in the proven MEDUMAT ventilation system line, has several extra features that make device usage even safer and ensure high-quality ventilation during transport of intensive care patients.

In the outdoor exhibition area (Stand F/17) Weinmann will present its disaster medicine portfolio, which includes InflaTec Easy, the self-supporting air-chamber tent system, and O₂ Box Rescue, a portable and versatile oxygen system. The Weinmann Servicemobil, which travels all over Germany to provide maintenance, repair and upkeep at the customer's location, will also be at the trade fair. On-site maintenance at the fair is offered for ventilators, MODULs, suction pumps and pressure reducers. (Appointments must be made in advance.) You'll find the Servicemobil in Hall 5 (Stand 510).
